Southpoint Industrial Supply Inc has become an important part of Southwestern Ontario's growth in the industrial and agricultural markets since 1997.

The solid partnerships that have been established with area customers have been the result of business integrity, dedication, hard work and the desire to satisfy customer needs.

These important relationships have also extended to suppliers in order to provide customers with fast, reliable, cost-effective service and components.

S.I.S. understands that providing great customer service and supplying fast, cost-effective solutions are the pillars of any successful business.
